

WORKSHOP ON INNOVATION AND DIGITAL TRANSFORMATION CALL FOR PAPERS

The resort of organizations and companies to digital transformation was accelerated during the COVID-19 pandemic. The latter has shed light on the significant role played by the processes of innovation and dematerialization in various sectors.

This health crisis has led to a quick adoption of digitization in sectors such as health, public administration, and education. In fact, several schools, companies, and institutions have made initiatives and launched projects reflecting an unprecedented industrial and digital transformation.

In this respect, the School of Information Sciences is organizing a workshop on « Innovation & Digital Transformation in the Era of COVID-19 » on 17-18 June 2021. The mode that will be adopted is a hybrid one.

The objective of this meeting is to reflect on and discuss innovative themes such as:

- Digitization of business processes and functions.
- e-learning and innovation in the education system.
- Electronic administration and e-services.
- Smart systems and business innovations.
- Document Management System (DMS) and informational heritage.
- Innovation in e-healthcare.
- Governance and information systems.
- Libraries and digital archive management.

The template of submission of abstracts (250 words) is available at the [workshop website](https://widt2021.sciencesconf.org) :

<https://widt2021.sciencesconf.org>

We invite you to contribute by submitting your works in a PDF format via the [EasyChair](https://easychair.org/conferences/?conf=widt21) platform:

<https://easychair.org/conferences/?conf=widt21>

All accepted abstracts will be subject to an oral presentation during the workshop and the complete versions of papers will be published in the journal of the School of Information Sciences (RESI).

Honorary General Chair

Dr. BAHJI Salaheddine, Director of ESI
